Summary

Software Engineer with an active Top Secret/Sensitive Compartmented Information (TS/SCI) security clearance and five years of experience developing complex applications. Expert in full-stack development using Java Spring Boot, Angular, and various other technologies. Seeking to leverage strong technical leadership and security expertise to drive complex software development initiatives.

Education

Wentworth Institute of Technology • Boston, MA • Graduated Magna Cum Laude, Apr 2022

- Bachelor of Science in Computer Science, Minor in Applied Mathematics
- Wentworth Baseball, Division III Commonwealth Coastal Conference
- Wentworth Accelerate (Wentworth's Innovation and Entrepreneurship Center)

GPA: 3.9/4.0 | Dean's list

Certifications & Clearances

AWS Certified Developer - Associate • Sep 2025 - Present

CompTIA Security+ Certification • Jan 2024 - Present

Top Secret/Sensitive Compartmented Information (TS/SCI) security clearance • Oct 2023 - Present

Skills

Core Full-Stack: Java, Spring Boot, Angular, TypeScript, JavaFX, HTML, CSS/SCSS

Databases & Messaging: MariaDB, MongoDB, SQL, RabbitMQ, REST, CQRS

DevOps & Tools: JIRA, GitLab, GitHub, VS Code, IntelliJ, Docker, Postman, Fortify, Claude Code

Operating Systems: Windows, Linux, RHEL

Work Experience

Software Engineer • Gnostech | Remote • July 2023 - Present

- Delivered and maintained multiple critical features for the Automated Update Distribution Tool (AUDT), enabling sophisticated update administration for warfighter systems.
- Led technical analysis and full-stack development of major, complex AUDT features, ensuring seamless integration and optimal performance across the platform.
- Proactively mitigated cyber risks and ensured system compliance by leveraging CompTIA Security+ expertise and continuous security training, enhancing mission effectiveness.

Software Engineer • UKG | Atlanta • Sep 2021 - July 2023

- Developed and maintained core features for the UKG Launch platform, significantly accelerating the seamless deployment process for new UKG customers.
- Led technical analysis and implemented development solutions for high-priority customer features.
- Leveraged continuous integration and continuous delivery (CICD) to efficiently provide value to customers
